

Rocky Flats Downwinders is a community organization which advocates on behalf of those impacted by living downwind from the Rocky Flats Nuclear Weapons Plant near Arvada Colorado. The organization came together through common concern about the high rate of illnesses suffered by former residents in the Arvada, Broomfield, Thornton and other communities surrounding Rocky Flats. On May 17, 2016, with the assistance of Metropolitan State University of Denver, we launched the first every health survey of Rocky Flats Downwinders.
